

COLLEGE APPLICATION MONTH

Best Practices for Site Coordinators

Planning Your Event

Reserve your event date early, get it on the school calendar and reserve any computer lab or classroom space.

College and Career Exploration and Preparation (Before the event)

Make October a college- and career-focused month for the entire high school that gets the teachers, younger students and even the community involved! Activities or events like speakers, career aptitude and interpretation assessments, classroom lessons and using the College Application Month resources will allow your students to make a well-informed decision on their application day.

Create folders for students that has the information they are going to need to successfully complete their day: high school transcripts, ND College Admissions Guidelines, Supplies to Apply, Student Instructions, etc.

Consider having individual parent/guardian meetings before your event to discuss students' postsecondary plans. Sites who held these meetings reported that they were beneficial to the long-term success of the students; not just during the application event but through the rest of their senior year.

Go over the Senior Information for Applications document with students, so that they know what information they will need to know such as SSN, birthdate, parent information, etc.

Get your teachers and other staff involved! Encourage teachers and administrators to use the "I Graduated" signs and College Bingo game to talk to students about their college experiences.

Encourage senior teachers to implement relevant college and career planning lessons into their classes.

- English: Scholarship or personal statement essays or resumes
- Math: How to calculate interest rates on loans
- Phys Ed/Health: Self-defense and how to stay healthy in college
- Social Studies: Research wages on North Dakota Labor Market Information for careers the student is considering and create a sample budget that includes needs like housing, food and childcare and wants like vacations and entertainment.

Day of Event

Create folders for your volunteers that have the hotline numbers, FAQs, admissions requirements and BND application code information in them. If you have any other information you'd like them to know about your event, include that too.

Greet the volunteers when they arrive and explain the structure, details and expectations of your event. You may even choose to hold a short meeting before you get started.

Make labels that have the BND application code to stick to the student's transcript or folder to be distributed during the application session.

Have transcripts or transcript request forms available for students who want to send their transcripts to colleges that day.

Take photos and post to your school's social media. Tag @BankofND and use the hashtags: #iapplied #collegeapplicationmonth #BankofND on your posts.

After the Event

Ensure that students who applied follow through with their applications by sending transcripts, test scores and any other admissions requirements.

Share your experience with us! Tag @BankofND and use #Iapplied #CollegeApplicationMonth #BNDConfident on all social networks.
