

# 2025 Grain Storage & Facility Rebuilder Programs

The Grain Storage & Facility Rebuilder Programs are designed to provide timely financial support to North Dakota's agricultural producers who were impacted by the severe derecho and tornado events of June 2025. There are two programs available and producers may apply for either one or both programs.

This loan is intended to fill a short-term need at a below market rate. Upon maturity, BND may participate in a long-term financing structure with the lead lender based on market rates and terms.
