What to bring to your College Application Month event

Preparation is important so you can make the most of your College Application Month event. Make sure you have the five items on hand to make applying to college as easy as possible.

1. **High school transcript:** Some colleges will ask about classes you've taken and the amount of credits. It may be helpful to have your dual credit transcripts available as well.
2. **College login information:** If you've taken dual credit, visited a college or attended a college fair, you may already have a username and password for the college to which you're applying. It's a good idea to have this information available so you don't get stuck at the beginning of the application.
3. **Social security number:** Make sure to have this number memorized.
4. **Application fees:** Bank of North Dakota will pay for one application fee (up to $35) to a North Dakota college or university. If you're applying out of state or to multiple institutions, make sure you have a debit or credit card handy to pay the fees.
5. **Email access:** Students will need to verify their email address as part of the application process. Colleges recommend using a personal email, rather than their @k12.nd.us address.
